To Whom It May Concern:

I am pleased to write this testimonial letter for Peggy Ann, founder, owner and inspiration behind Change of Address. I have known and worked with Peggy Ann for more than 10 years. We met when she got involved as a champion volunteer and donor of Make-A-Wish Wisconsin. She had a passion for helping make wishes come true for children living with life-threatening medical conditions.

Peggy cares deeply about the community and acts as a frequent mentor to help us all achieve our personal best. She is generous with her time, talents and treasures. She was the inspiration behind a donor wall that is the showcase art piece in our new office. She not only envisioned and designed the wall, she sought out and then sponsored the artist who painted her vision into reality! In addition, when Peggy founded Change of Address, it was her idea to donate a portion of the proceeds to Make-A-Wish Wisconsin as a thank you for her continued success in business.

I have witnessed first-hand Peggy's work and passion as a team player. She is enthusiastic, has an excellent work ethic, is reliable and has a spark for life that is infectious to those lucky enough to know and work with her.

Change of Address is an innovative service company that will not only make a difference in your move and new home, it will also help make wishes come true for courageous wish kids. Thank you for the opportunity to tell you more about Change of Address and Peggy Ann. Please feel free to contact me if you have additional questions.

Sincerely,

Patti Gorsky
President & CEO
